Zoos for Education

Many people go to zoos for fun. However, they have an educational aspect for children. Of course, kids can see what animals are really like, but some animals in the wild need protection. Kids can learn that there are such animals, and in this way they can start thinking about the endangered species. We have to remember that zoos can be helpful educationally.

Your story should begin with this sentence: One day, Mr. and Mrs. Takeda were thinking about where they would take their son, Takeshi.

Early Education of English

These days, many parents are enthusiastic about children learning English early. They send their children to kindergartens that offer English education. The kindergartens hire people who speak English. Children interact with these people at the kindergartens, and by doing so they learn English in a natural way. Most of their parents are satisfied with the situation.

Your story should begin with this sentence: One day, Mr. and Mrs. Yamada were thinking about taking their daughter, Kana, to an English language school.
