## 問題 1

以下の英文を読み、問いに答えよ。

It's been well over four years since I last traveled back to Canada, my home country. First, it was the COVID-19 pandemic\*1 that made traveling very difficult. Then a baby girl was born into our family. Although we discussed going back while she was still a baby, in the end we felt it (1) be easier to wait until she was a bit older. The flight to Toronto\*2 takes at least 13 hours, which feels like a very long time to travel with a baby.

Last month, we finally made our decision and reserved our flight to Canada for May. I'm still nervous about how she'll do on such a long flight, but otherwise\*3 I'm really excited to visit home. It's no wonder that I'm looking forward to (2) friends and family after all these years. Video chats\*4 just aren't the same as meeting in person\*5.

But more than (3) that, I'm excited to be a tourist in my own country. Even before moving to Japan, I had been living in western Canada, which was far enough away to make trips to eastern Canada, where I grew up, very difficult. (4) So a lot of the touristy \*6 things that had seemed boring when I was younger now feel exciting and fresh.

While we're still planning our trip, there are already a few things that I really want to do. In the Toronto area, I'd like to take the family to a Blue Jays\*7 game. My wife and I have been to many Hanshin Tigers games together since I moved to Japan and I want her to experience the (5) atmosphere and food at a game in North America. We might also take a trip to Niagara Falls\*8, which is a top site on any visitor's travel plan.

I also want to spend a lot of time [6] my family what it's like outside of Toronto. While much of my youth was spent in that part of Canada, I was actually born in Montreal\*9 and I still have a strong connection to the city where I was born. [7] In a lot of ways, Montreal is a perfect blend of Europe and North America, making it a special place to visit. Ottawa, Canada's capital, is also a great city which has a lot of interesting museums and buildings.

Finally, we might take a trip all the way out east to visit Prince Edward Island\*<sup>10</sup>, Canada's smallest province. The Canadian countryside is a beautifully quiet place to visit and far different from our lives in busy and crowded Osaka.

Our trip will last three weeks, which sounds like a long time. But I also know it passes by fast, especially if we keep busy — just like many tourists (8) do.
